4:2:0 observation
Y full resolution + interpolated Cr/Cb
Observed low-resolution chroma samples
Li2026 analytic RGB baseline
V5
U-Net generates all 3 channels
optional PatchGAN
V6
8-block Cartesian chroma-residual CNN
V7
polar mean + amplitude/phase uncertainty and safe output
Research baselines
configurable residual, SRCNN, NAF-style
Prism family
residual / NAF / U-Net
Cartesian / polar heads
TabPFN pilot
two per-image hosted regressors
Li2026 hybrid
protected RGB correction
from V6 or Prism
Reconstructed YCrCb
Refined RGB
